## Angeles Investments Earns B Corporation Recertification, Underscoring Enduring Commitment to Purpose-Driven Values\*

Institutional and wealth management firm recognized for mission alignment and driving impact through its work with nonprofits.

**Santa Monica, CA, August 5, 2025** — **Angeles Investments**, a global multi-asset investment firm and OCIO with approximately \$37.1 billion in total assets, including \$6.9 billion in discretionary assets under management (as of March 31, 2025), is proud to announce that it has been recertified as a B Corporation ("B Corp™") by B Lab™, the nonprofit organization that administers the certification. This designation reaffirms Angeles' ongoing commitment to high standards of social and environmental performance, transparency, and accountability.

"Our recertification as a B Corp reflects who we are and what we stand for," said Howard Perlow, CEO and Co-Founder of Angeles. "From the beginning, we have aimed to build a firm with a deep sense of mission – not just in how we invest, but in how we engage with our clients, our colleagues, and our communities. This recognition affirms what we represent and reinforces the trust our clients place in us every day."

Angeles first earned a B Corp certification in January 2023. The recertification process evaluates the ongoing impact of the company's business model and operations across five categories: governance, workers, customers, community, and environment. Angeles' recertification will be valid for an additional three-year term.

"Being a B Corp is more than a badge – it's a reflection of our firm's ethos," said Anna McGibbons, Senior Managing Director and Partner at Angeles and leader of the firm's mission-driven initiatives. "We consistently seek to align portfolios with our clients' values, and every relationship we build is grounded in shared purpose. This recertification highlights our commitment to this purpose."

Angeles is proud to remain part of the global community of over 5,000 B Corps across 79 countries and 150 industries, all of whom are *using business as a force for good™*.
